Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2017 - December 31, 2017

Filing Confirmation Number: 0008063678

Filing Deadline: January 16, 2018

FRN: 0021503834

Filing Date: 01/16/2018 04:12 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Shenandoah Personal Communications, LLC

Brand Names: Sprint
Boost
Virgin Mobile

PO Box: 459

Street Address: 500 Shentel Way

City: Edinburg

State: VA

Zip Code: 22824

Contact Name: Ann Flowers

Contact Phone: (540) 984-5320

Contact Fax: (540) 984-8192

Contact Email: Ann.Flowers@emp.shentel.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: <https://www.shentel.com/legal>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Describe consumer outreach efforts in the past 12 months: Given Shentel's affiliate relationship with Sprint, Shentel primarily relies on the consumer outreach efforts of Sprint (i.e., Sprint website, Sprint handset user guides and manuals, and other Sprint outreach efforts). In addition, each Sprint store in the Shentel service area continues to provide HAC handset rating information on its in-store "Fact Tags" and/or "Call-Out Cards."

Methodology for Functionality Levels

Each handset is evaluated by a Sprint product and technology committee who selects the appropriate functionality level based on handset capabilities from the simplest basic functionality to high-end smartphone devices with complex operating systems. The functionality levels defined for 2015 are: Advanced, Intermediate, and Basic. Basic or Feature phones support text messaging where alphanumeric text entry may require triple tapping. Simple web-browsing capability and other data services are typically supported. Intermediate handsets are voice capable messaging phones such as QWERTY keyboards, enhanced browsers such as those that support HTML and High

Performance Push-To-Talk with high data speeds. Advanced handsets have complex smartphone operating systems such as Android and Apple iOS.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 56

Air Interface	Fully Hearing Aid Compatible Number Percent		Acoustic Coupling Compatible Only Number Percent		Non-Compliant Handsets Number Percent	Total by Air Interface
CDMA	56	100%				56

Handset 1: Alcatel Cinch

Handset Maker

Alcatel

Handset Model Name

Cinch

FCC ID

V30 Plus

FCC ID

ZNFLS998

Air Interfaces/Frequency Bands

800 MHz CDMA
1900 MHz CDMA

Dates

This handset model was offered from: 10/17 to 12/17

Ratings

M-Rating: M3

T-Rating: T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911?

Functionality Level

Advanced
